Obviously illness or injury will mean that students may not be able to ski but in most cases they will still be expected to come to the mountain and snuggle up somewhere warm and cosy by a fire! They will be supervised. Being tired is not an excuse, we are there to ski, not eat Haribo and fail to sleep!

Supervision

- Staff will make every effort to ensure that your son/daughter has a safe but exciting, challenging and rewarding weeks skiing.
- To achieve this we need all skiers and of course their parents to support us.
- The students need to respect the mountain environment, their ski instructors and of course the SWCHS staff.
- **Our students will not ski unsupervised at any time.**
- Any students requiring hospital treatment will be accompanied by an appropriate member of SWCHS staff who will remain with them throughout their stay.

The Skiing

- The most important bit!!
- Groups of 10-12, decided by the ski instructors.
- Groups will be determined by ability.
- You may not be in a group with your best friend.
- Any movement between groups will be communicated to us by instructors.
- Progress is generally excellent!

SWCHS Supervised Skiing

- There will be the opportunity for children to have additional ski time with staff.
- This will be in the form of a warm up on the beginner slopes if time and conditions allow and/or laps around a supervised piste at the end of the day.
- The decision will be made by Mr Milne, who will assess the conditions, ski ability and ability to safely supervise the activity. We will not be able to supervise this for all 80 students at the same time!
- Pupils will be with staff at all times.
- Staff will lead but not instruct (although Mr Milne can!).
- Please indicate on the consent form if you are happy for your son/daughter to participate in this.

Snowsport Instructors) Level 1

- Staff will be on hand to help.

Après Ski and Meal times
